

All New 6.7L Turbo Diesel

Elevated performance and durability

Common high-output rating of 430 hp - 1075 lb.-ft. of torque (for pickups) delivers noticeable gains in acceleration and power

Chassis cab rating of **360hp** and **800 lb-ft of torque**

Common high-output rating now available in both the **2500 & 3500**

About a **60 hp improvement** over previous top rating for the 2500

Redesigned engine block, heavy-duty pistons, and improved cooling and pressure capability

Backed by a **5-year, 100k mile** warranty

Engine made in the USA (Columbus, Indiana)

Enhanced serviceability

Routine maintenance from the top of the engine allows for faster and less complex servicing

- No mess oil filter changes
- Inline dual fuel filters mean no need to get under the truck to change filters

Flash over-the-air update capable

- Get the latest engine software updates in minutes, from the comfort of your own driveway or garage

Improved Efficiency

High-efficiency fuel injection delivers precise fueling control at high pressures for better fuel economy*

**results may vary based on individual driving habits*

Advanced air handling design means the engine breathes better

New performance intake manifold with improved flow

New high-performance turbo

Fully emissions-compliant in all 50 states

Upgraded driveability

Ideal for commercial and mixed-use business owners or personal recreational use where towing capability is critical

Improvements in towing speeds and responsiveness, with faster 0-60 mph and quarter-mile times, especially when towing heavy loads

- About a 5% speed on grade improvement
- Paired with HD 8-speed transmission for a smooth ride overall

Faster start up in cold weather

Cold start management system now uses glow plug technology rather than a grid heater

Wait-to-start time is less than **3 seconds**
